SECTION 3: HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

Physical state: Powder

Colour: Yellow to Yellowish Green

INGESTION: Harmful if swallowed. **INHALATION:** Harmful if inhaled.

EYE CONTACT: May cause eye irritation. **SKIN CONTACT:** May cause irritation.

DELAYED EFFECTS: No delayed effects known.

IMMEDIATE HEALTH EFFECTS

Eye contact	Slightly irritation to eyes.
Skin contact	Moderately irritating to skin.
Ingestion	Harmful if swallowed.
Inhalation	Harmful if inhaled.

Protection of Fire	Wear self-contained breathing apparatus and protective clothing to
Fighters	prevent contact with skin and eyes.
Special Properties	Avoid breathing fumes from fire exposed material.
SECTION 6: AC	CIDENTAL RELEASE MEASURES
Protective	Appropriate protective equipment must be worn when handling a spill of
Measures	this material.
Spill Management	If the spill occurs out of doors, cover the spilled product with a moisture-proof material to prevent degradation. If the covered material is in direct sunlight, measures should be taken to protect it from solar heat, which may cause degradation to commence or accelerate.
	For small spills, sweep or scoop up material to suitable container in a manner that does not form an air-borne dust and store collected material as a slurry in water in secure containers until safe disposal can be arranged. Do not vacuum up spilled material as the dust created may
	form an explosive mixture when combined with air. Do not allow spilled material to contaminate water supplies.

SECTION 7: HANDLING AND STORAGE Keep container closed. Do not handle this product near food, feed or Handling & water. Keep out of reach of children or animals. Avoid breathing, Storage procedure ingestion and contact with eyes, skin or clothing of dust. Remove and wash contaminated clothing before reuse. Contaminated clothing should be washed separately from domestic laundry and line dried. Users should wash hands and face before eating, drinking, chewing gum, using tobacco or the toilet. This material is not hazardous under normal storage conditions. However material should be stored in closed containers, in a secure area to prevent container damage and subsequent spillage. Store in original container. If allowed to become wet the product will deteriorate and represent a fire hazard.

SECTION 8:	EXPOSURE CONTROLS / PERSONAL PROTECTION
Engineering controls	Ventilation: Investigate engineering techniques to reduce exposures. Provide ventilation if necessary to minimize exposures. Use mechanical exhaust ventilation at sources of air contamination such as open process equipment.
Personal Protective Equipment	 Eye / face Protection: Safety Glasses or goggles. Skin protection: Avoid skin contact. Rubber gloves should be worn whenever this material is handled. Wash hands with clean water. Body protection: Avoid skin contact. Wear long-sleeved fire-retardant garments. Respiratory Protection: Where airborne exposure is likely, use NIOSH approved respiratory protection equipment appropriate to the material and or

its components. For emergency and other conditions where there may be a potential for significant exposure, use an approved full-face positive-pressure, self-contained breathing apparatus or positive-pressure airline with auxiliary self-contained air supply.

SECTION 11: TOXICOLOGICAL INFORMATION		
Acute Oral toxicity LD50 > 5000 mg/kg for rats		
Acute Dermal toxicity	Rat LD50 > 2000 mg/kg	
Acute Inhalation toxicity	> 2.86 mg/L	
Eye irritation: non-irritating to rabbits.		
Skin irritation: non-irritant to rabbits.		

SECTION 12:	ECOLOGICAL INFORMATION
Ecotoxicity	Mancozeb is not hazardous to bees and is slightly toxic to birds. Mancozeb is
	poisonous to warm-water fish and at least moderately toxic to cold-water fish.
	ETU is highly toxic to aquatic organisms.
Environmental	No data

SECTION 13: DISPOSAL CONSIDERATIONS

WASTE DISPOSAL PROCEDURES: waste disposal should be in accordance with existing federal, state and local environmental regulations. Dispose of empty, used containers in approved incineration plant in approved land filling area or in a disposal pit away from desirable plants and their roots and water courses. On-site disposal of undiluted product is unacceptable
