

Indtron® AE
Universal Non-Ionic Spreader, Sticker & Activator

Composition :	W/W
Principle Functioning Agent :	
Resins of Synthetic Esters	37.5%,
Alkyl Phenoxy Polyethoxyethanol	12.5%,
Inert Ingredients	50.0%

General Information :

- Indtron is a general purpose low foam Non-Ionic spreader, sticker and activator with unique rainfastness property for use on plants to maximize the effectiveness and efficacy of pesticides.
- It is designed for quick wetting, uniform droplets distribution and increased spray retention on leaf surfaces. Indtron incorporates the property of a spreader, sticker, activator and translocation activity.

Direction for use :

- Use clean water (Muddy water should be avoided).
- Mix required Herbicide/Insecticide/Fungicide in small quantity of water and stir well.
- To this solution add 60 ml of Indtron Surfactant for 100 lts of water volume in case of Insecticides and Fungicides.
- In case of Herbicides add 100 ml of Indtron Surfactant for 100 lts of water.
- Clean the nozzle after subsequent spray to improve discharge rate.

Note :

Prior to use, read and follow all directions on the label of the Pesticides being used. The pesticide Manufacturers label for specific usages and restrictions have precedence over directions FOR USE referred to on this label.

Storage & Disposal :

- Store the product in its original container. Keep away from other pesticides, fertilizers, food or feed.
- Do not reuse any empty container for any purpose.
- Store in a cool and dry place.

Incompatibilities :

Indtron AE is not compatible with fertilizers, specially Ammonium Sulphate.

Precaution :

- Avoid contact with eyes, skin and clothing.
- In case of eye contact immediately, flush with large quantities of water atleast for 15 minutes.
- In case of body contact wash affected areas with soap and water.

Warranty : Since the use of the product is beyond our control, we cannot assume any responsibility other than the uniform quality of the product. **Surfactant for Agricultural use only**
