

AMITY® (Systemic and Contact Fungicide)

HEXA CONAZOLE 4% + ZINEB 68% WP

Hexaconazole 4% + Zineb 68% WP (Wettable Powder) is a broad spectrum systemic and contact fungicide.

Recommendations for use :

Crop	Diseases	Dosage / hectare		Waiting period Between last Spray and harvest (days)	Amiti	Antimicrobial activity against various plant diseases	
		a.i. (gram)	Formulation Water (gram)			भारतीय मात्रा (ग्राम)	संस्कृत मात्रा (ग्राम)
Paddy	Sheath Blight, Brown Spot, Blast, Grain discoloration	(40+680) / (50+850)	1000-1250	500	34	(80+680) / (90+850)	1000-1250
Tea	Black Rot, Grey Blight	25+425	625	250-500	7	25+425	625
Apple	Scab, Pustule leaf fall, Alternaria leaf spot, Black Rot, Powdery mildew, Core rot	200 + 3400	0.25% or 25 g/10 lit. water	10 lit./Tree	30	200 + 3400	0.25% or 25 g/10 lit. water
Maize	Maidis Leaf Blight, Turcicum Blight	50+850	1250	500	43	50+850	1250
Cotton	Leaf Spot, Bell Rot	50+850	1250	500	23	50+850	1250

Time of Application, manner of use and the plant protection equipment to be used: The product should be sprayed immediately on appearance of disease symptoms. As per recommendation, mix the pesticide and water at right doses and spray. Use 250-500 litres water per hectare for paddy, tea, maize, cotton and 10 lit./tree for apple. Before spraying the pesticide, it's suspension should be mixed well with a wooden stick. **Phytotoxicity:** The Product is non-phytotoxic when used as per recommendation. **Precautions :** 1. Avoid contact with mouth, eyes and skin. 2. Avoid inhalation while spraying. 3. Wash thoroughly the contaminated clothes and part of the body after spraying. 4. Do not smoke, drink or chew anything while spraying. 5. Wear full protective clothing while handling. 6. The product is toxic to fish and aquatic invertebrates and thus should be avoided near aquaculture. **Symptoms of Poisoning :** Nervousness, anxiety, tremors, convolution and allergic manifestations. **First Aid Measure :** 1. If swallowed, induce vomiting by tickling the back of throat. Repeat it until the vomit is clear. Do not induce vomiting if the patient is unconscious. 2. If clothing and skin are contaminated, remove the clothes and wash the contaminated skin with copious amount of soap and water. 3. If eyes are contaminated, flush with plenty of clean water for about 10 to 15 Minutes. 4. If inhaled, get the victim into fresh air. **Antidote :** No specific antidote. Treat symptomatically. **Storage :** The package containing the fungicide should be stored in separate rooms or premises away from the rooms or premises used for storing other articles particularly articles of food or should be kept in separate almirahs under lock and key depending upon the quantity and nature of the fungicide. The rooms or premises meant for storing the fungicides should be well built, dry, well lit and ventilated and of sufficient dimension to avoid contamination with vapour. **Disposal of used container:** Packages or surplus materials and washings from the machines and containers shall be disposed off in such a manner so as to prevent environmental or water pollution. The used packages should not be left outside to prevent their re-use. Package should be buried away from habitation and source of water. **Chemical Composition : Components Contents (% w/w)** Hexaconazole a.i.: 4.00, Zincineb a.i.: 68.00, Sodium Ligno Sulphonate (Dispersing agent-1): 4.00, Sulfonated naphthalene condensate sodium salt (Dispersing agent-2): 3.00, Sodium alkyl naphthalene sulfonate (Wetting agent): 1.50, Silica (Fillers): 2.00, Sucrose (Fillers): Q.S. **Total: 100.00.**
